

Matsudo Fireworks Festival

in 2014

~Everybody's "Dream Fireworks"~

This is the Fireworks Festival that will give you super excitement with collaboration of light, color and sound. The night sky of Matsudo will be beautifully colored by about 10,000 shots of those fireworks from traditional types to modern ones.

Date : August. 2 (Sat)

[to be postponed to August 16 (Sat) in case of bad weather or heavy wind]

Time : 1915 ~ 2020 hours

Site : Edogawa Riverside Area (just ahead of Matsudo Central Library facing the riverside)

* We are still looking for sponsors who will kindly sponsor Matsudo Fireworks Festival until August 1 (Fri). (However, application for special favors such as printing your name or message in the program has already been closed).

Guidance for the event on the day Tel 0180-99-1480

[When it is decided to hold the event, a firecracker will be displayed at 1500 hours on the day at the Edogawa riverside area.]

- A lot of crowd is expected on the day, so visitors are advised to be careful with any injuries or missing children.
- Please throw trash into the designated trash boxes after separating it type-wise.
- Please come by public transport.
- You can't save a place for viewing beforehand until 1400 hours of the day before the event day.

Your Cooperation is Requested for

Proper Sorting & Disposing of Household Garbage

You are kindly requested to cooperate with us in sorting and disposing of household garbage more properly after rechecking the guidance of “How to Sort and Dispose of Household Garbage (2014 Fiscal Year Edition)” that is distributed at City Hall, branch offices and community centers or can be downloaded through City’s website.

■ Let’s recycle plastic items

“Recyclable plastic items” are printed on them with the identifying mark as shown below. Plastic items that were used as containers or wrappings for some goods fall under this category. Please be sure to use up the contents completely and rinse with water before disposal. In order to avoid inclusion of any other category items and to sort the items properly, please check carefully the identifying mark when you take the garbage out. Identifying mark ⇒

■ Let’s dispose of Bulk Garbage properly

There occasionally happen problematic cases where Bulk Garbage (such as Futons, legless chairs, carpets, and others), for which a disposal charge is required by rule, is disposed of at the collection sites without paying the said charge. Items that are 50cm or longer on any side are regarded as Bulk Garbage. But there may be cases where some items might be regarded as Bulk Garbage regardless of their sizes depending on the condition of the items, such as those items combined with different materials. The collection sites are operated under cooperation and management by you citizens. Let’s follow the rules to keep the collection sites clean.

Reception Center for Disposal of Bulk Garbage: Tel 391-0007 (closed: Sundays, national holidays)

Inquiries to: Environment Management Section, Guidance office (or *Kankyō Gyōmu-ka, Shidou-gakari*) Tel: 366-7333

■ Let’s make good use of Matsudo city’s Designated Plastic Bags

The Designated Plastic Bags can be used for putting in “Burnable Household Garbage”. The plastic bags cover up the weak point of paper bags which are easy to tear if they get wet. The plastic bags are also helpful to keep the collection sites clean. Please make good use of them.

Inquiries to Waste Management Section (or *Haikibutsu Taisaku-ka*) Tel 704-2010
